

Student Management SaaS Dashboard

Overview

The purpose of this project is to develop a simple Student Management System that helps administrators manage student information, attendance, fees, and exam results through a user-friendly dashboard.

Features Implemented

Dashboard

- Displays key statistics.
- Shows total students.
- Displays attendance percentage.
- Shows fee payment status.

Student Registration

- Add new students using a form.
- Select student grade.
- Automatically updates student records.

Student Search

- Search students by name.
- Real-time filtering of records.

The screenshot displays the 'Student Management' dashboard. At the top, a green header bar contains the title 'Student Management' and a 'Dark Mode' toggle. Below the header, the dashboard is organized into several sections. The 'Dashboard' section features three blue cards: 'Total Students' with a value of 3, 'Attendance' with 92%, and 'Fees Paid' with 80%. The 'Add Student' section includes a form with a 'Student Name' input field, a 'Grade 1' dropdown menu, and a green 'Add Student' button. The 'Search Student' section has a 'Search by Name' input field. The 'Student Records' section is partially visible at the bottom.

Student Records

- Displays all registered students.
- Shows student names and grades.

Attendance Management

- Tracks student attendance.
- Displays Present/Absent status.

Student Records	
Name	Grade
Janvi	Grade 3
jiya	Grade 4
Aditya	Grade 5

Attendance	
Student	Status
Janvi	Present
jiya	Present
Aditya	Absent

Fee Management

- Shows fee payment status.
- Identifies paid and pending fees.

Exam Results

- Displays student marks.

- Helps monitor academic performance.

Fee Status	
Student	Status
Janvi	Paid
jiya	Paid
Aditya	Pending

Exam Results	
Student	Marks
Janvi	88
jiya	93
Aditya	79

Notification System

- Success message appears when a student is added.
- Improves user interaction.

Dark Mode

- Allows users to switch between light and dark themes.
- Enhances user experience.

Responsive Design

- Works on desktop, tablet, and mobile devices.

- Flexible layout using CSS media queries.

Technologies Used

- HTML
- CSS
- JavaScript

System Workflow

1. User opens dashboard.
2. User can view statistics and student records.
3. New students can be added through the registration form.
4. Student list updates automatically.
5. Users can search for students.
6. Attendance, fee status, and exam results are displayed.
7. Notifications confirm successful actions.
8. Dark mode can be enabled when needed.

Advantages

- Simple and easy to use.
- Beginner-friendly design.
- Responsive across devices.
- No database required.
- Fast performance.
- Easy to customize and extend.

Limitations

- Data is not stored permanently.
- No login authentication.
- No database connectivity.
- Limited reporting features.

Conclusion

The Student Management SaaS Dashboard successfully provides essential functionalities such as student registration, attendance tracking, fee management, exam result monitoring, notifications, dark mode, and responsive design.
